DETAILED ACTION

1. Amendment and remark filed by applicants dated Mar. 10, 2009 have been entered and considered carefully.

Claims 1-13, 20-27 have been canceled.

Claims 14-19 are pending.

2. *Reason for Allowance*

The following is an examiner's statement of reasons for allowance:

Patentability of a chemical process depends on the products being made from the starting material and the operating parameters such as temperature, solvents etc. A close survey of the prior art WO 97/46527 evidenced that '527 examples 29-44 exclusively disclosed using a single solvent system of alcohol (methanol, ethanol or THF) to dissolve the starting material i.e. fexofenadine free base, then hydrochloride dissolved in the same solvent was added. The instant claims are drawn to dissolving fexofenadine free base in an immiscible solvent system i.e. a mixture of chloroform and water (see Merck Index) then hydrochloric acid was added directly. Therefore, motivation of employing a mixture in place of the single alcohol solvent of the prior art process is lacking. Claims 14-19 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Celia Chang, Ph. D. whose telephone number is 571-272-0679. The examiner can normally be reached on Monday through Thursday from 8:30 am to 5:00 pm.
